

# .AU Registry - growth

- Record registration growth over the past few months
  - a reflection of the strength of the Australian economy.
- Cross-zone marketing initiatives
  - promoting .net.au to .com.au registrants (where the corresponding name is available) and vice versa
  - successful in driving incremental registrations.

# DNSSEC & IPv6

- DNSSEC
  - testing ongoing
  - Working towards launch of testbed in Q1 2010
- IPv6
  - glue records being accepted & IPv6 transit added
  - AAAA not yet published in root
  - sponsoring Australian IPv6 Summit in Melbourne in December 2009
