Organizational Reviews in ICANN

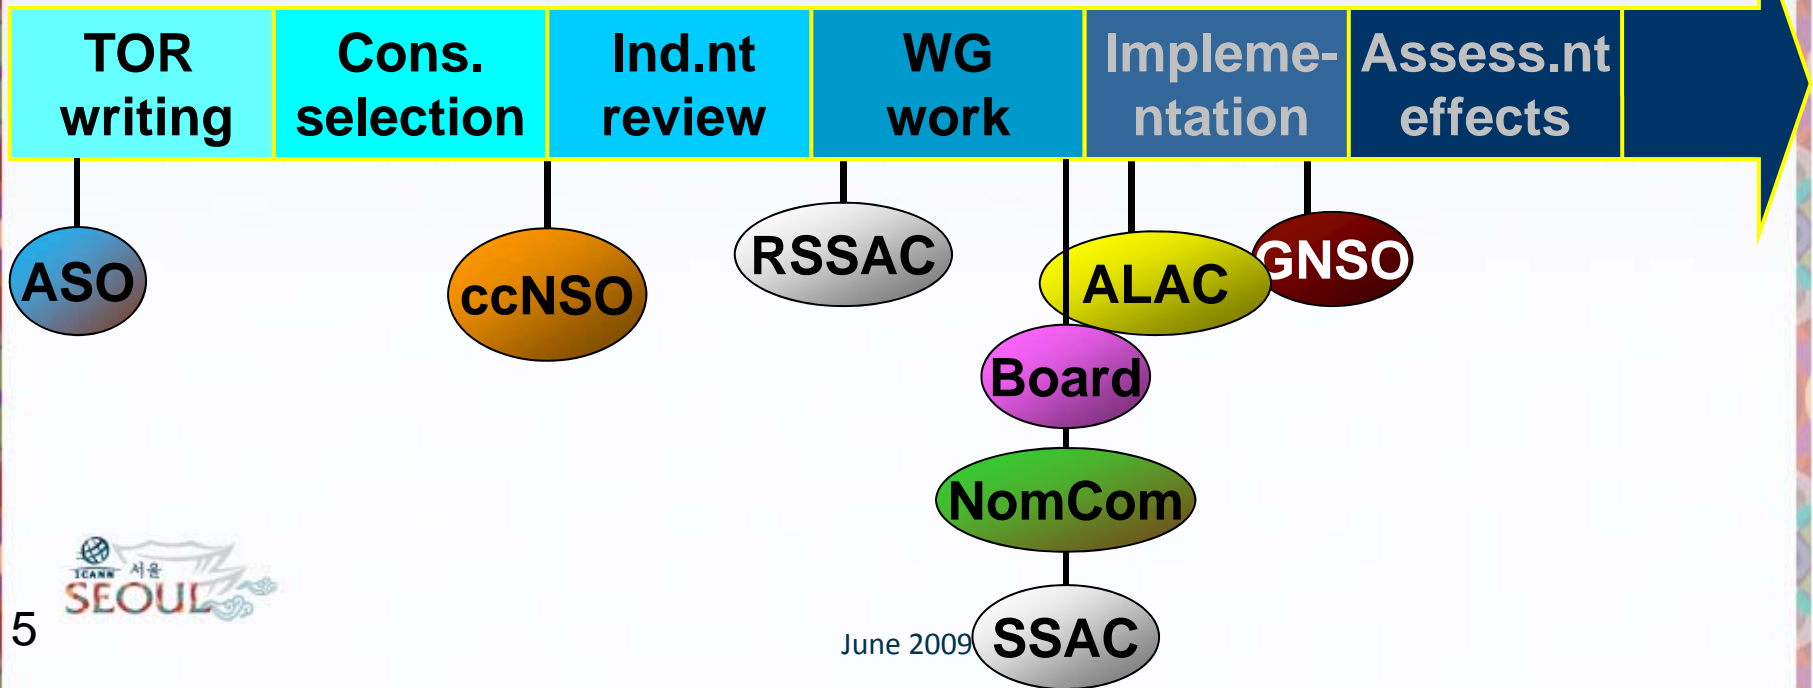

Note: WG = Working Groups

Main activities since Sydney (1)

Reviews

- Coordination of ongoing review processes, through review Working Groups (RSSAC, SSAC, NomCom, Board)
- Launch of review processes (ccNSO, ASO)
- Overview of implementation work (GNSO, ALAC)

Main activities since Sydney (2)

Systematization review processes

Adoption of a new set of rules for governing Organizational Review processes; objectives:

- ✓ to streamline processes
- ✓ to increase transparency and accountability
- ✓ to enhance interaction with the community
- ✓ to increase value of outputs

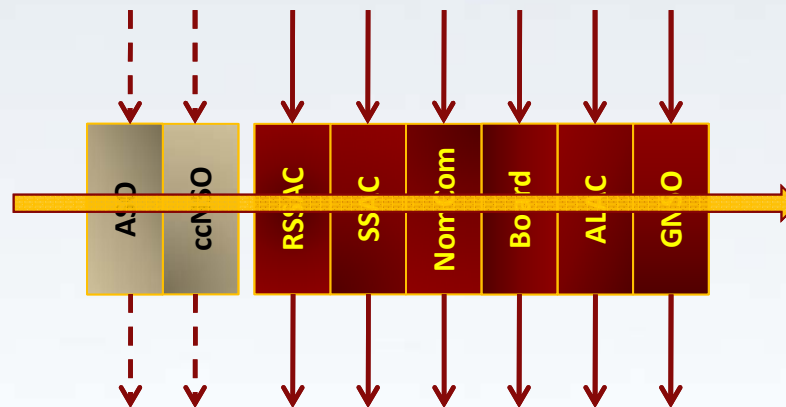

Status

Adopted by the SIC and the Board, after public comments. In operation.

Main activities since Sydney (3)

Horizontal view

Analysis of recommendations from all Organizational Review processes, to identify interlinks and issues to be resolved.

Status

Interconnections identified, Board and NomCom review WGs tasked with analysis, now close to finalization for SIC and Board action.

Thank You
